Orders & Deliveries!

STAFF ASSISTANTS: Please ask the name of our Staff Member who assists you either at the nursery or telephonically. This makes the handling of queries much more efficient.

AVAILABILITY: Orders are accepted subject to the availability of stock (Please advise whether you are prepared to wait for back orders).

DELIVERY DATES: In PEAK season, i.e. April and May, orders should be placed at least 3 DAYS BEFORE THE REQUIRED DATE.

At other times, requests to deliver on a particular day will be met whenever possible, but cannot be guaranteed.

DELIVERY TIMES: Our Staff Members are not permitted to promise deliveries for a particular time of day. Our drivers have discretion in arranging their routes as economically as possible. Therefore deliveries may be at any time between 8.00 a.m. and 6.00 p.m.

MINIMUM ORDERS: We reserve our right to accept orders for delivery to a MINIMUM OF 2 TRAYS OF 128 OR 200 PLANTS. However, we will endeavour to help with smaller orders as much as possible. Delivery of these smaller orders will depend on availability of truck space. SORRY, we DO NOT deliver quarter trays, 4 packs or Pots. You are welcome to call in anytime, Monday to Sunday.

COMPLAINTS: We do our utmost to supply only the very best seedlings, but occasionally the odd mistake can happen. Any complaints MUST be made within 48 hours of delivery or purchase. Delivery notes marked “Not checked” are not acceptable, and do not exonerate the customer from being liable for the plants delivered. (Obviously, plants that have been neglected or ill-treated AFTER delivery or purchase, are not our responsibility and must still be paid for).

Trading hours for April and May: Mon-Fri 8am-5pm, Sat-Sun 9am-4pm
Trading hours for March, June, July and August: Mon-Fri 8am-5pm, Sat 9am-3pm, Sun 9am-2pm

Less 10% Discount Collected  Less 5% Discount Delivered
**BELLIS PERENNIS**  English Daisy  **R 470 per Tray / 128 plants**
The showy pink, white and rose- red flowers bloom continuously for weeks and weeks – specially if deadheaded regularly. Superb edging plants.  • Mixed  • White  • Strawberries & Cream
*Also available in 24 packs - R 200 per Tray*
Height: 15 cm  Spacing: 15 cm  Ideal for: Edging, Bedding and Containers

**CHYSANTHEMUM**  Valuable border plants that just keep on blooming.
• **White Paludosum** – Height: 25 cm  **R 470 per Tray / (200 plants)**
• **Yellow Multicaule** – Height: 15 cm  **R 470 per Tray / (128 plants )**
128 plants will cover 3,5 m²  Ideal for: Edging and Bedding  200 plants will cover 4,5 m²

**CALENDULA**  A ray of sunshine in your garden  **R 450 per Tray / 128 plants**
If it’s bright cheerful colour you like – go for Calendulas! Their dominant orange and yellow flowers can’t be ignored, and will liven up the dreariest of garden corners.
• Orange  • Apricot  • Yellow  • Mixed
Height: 30 cm  Spacing: 20 cm  Ideal for: Bedding, Borders and Containers

**CINERARIA**  Jewel Colours
A warm sheltered garden is the perfect setting for Cinerarias. Grow them in dappled shade, or a bit of morning sun, but protection from frost and cold winds is essential.
**DWARF MIXED**  Height: 30cm  **R 290 per Tray / 24 plants**
**TALL MIXED**  Height: 50cm  **R 460 per Tray / 128 plants**  Ideal for: Bedding, Borders and Containers

**CINERARIA MARITIMA** - **Dusty Miller**  **R 260 per Tray / 24 plants**
Attractive silver grey foliage plant. Fern like leaves, which provide interesting texture and color in sunny borders or containers. Remove flower spikes to encourage bushiness.
• **Silver Dust**
Height: 30 cm  Spacing: 20 cm  Ideal for: Bedding and Borders

**DELPHINIUM** - **Queen of the Border**  **R 290.00 per tray - 24 plants**
Spectacular in the garden, in exquisite shades of blue, lavender, lilac, pink and white, all with contrasting white or dark centres. Ensure beds are well composted and fertilised and keep well watered. Immediately after flowering, remove the flower spike - this will encourage additional spikes to form. Delphiniums do best in a sunny aspect with some light afternoon shade. Staking may be necessary.
**Magic Fountains Mixed** Height 60cm  Spacing: 25cm
**Pacific Giants Mixed** Height 1.5m
Ideal for: Borders, Cottage Gardens and Cut Flowers.

**DELPHINIUM**  **F1 Summer series**  **R 310.00 per tray - 24 plants**  Height: 30cm
Wonderful bedding Delphiniums similar to the older Blue Butterfly variety but vastly improved to include a range of colours including soft pink! Strong growing plants form low mounds of fine fern-like foliage and produce sprays of single spurred flowers in abundance throughout summer. Cut back spent blooms to encourage repeat flowering. Ideal in rock gardens, containers or in garden beds.
• **Summer Nights** - Dark Blue  • **Summer Colours** - Mixed
**DIANTHUS**

*Pink shades Mixed Blueberry Delight*

Ideal for: Edging, Borders and Containers

- White
- Pink Shades Mixed
- Mixed
- Blueberry Delight
- Carmine Rose
- Strawberry Parfait

Height: 30 cm  Spacing: 15 cm  **128 plants will cover 3 m²**

---

**New Generation F1 DIANTHUS**

Available in Trays of 24 plants

- **Dianthus Amazon** R 250
  - Ever popular series, outstanding performer in the landscape. Strong sturdy stems bear masses of large flowers.
  - Neon Cherry
  - Neon Magic Rose
  - Neon Purple

- **Dianthus Jolt** R 270
  - Beautiful shade of deep pink flowers on strong growing plants that will continue to flower without setting seed. Excellent cut-flower. 2015 All-America Selections Winner.
  - Pink

- **Dianthus Sweet** R 250
  - Attractive pale pink blooms, on strong straight stems. Flowers are delicately perfumed and long lasting. Great garden performance.
  - Pink

- **Dianthus Dash** R 270
  - An improved strain of Sweet William producing masses of fragrant blooms on sturdy well-branched plants.
  - Mixed

---

**FOXGLOVE**

*F1 Camelot series* R 250 per Tray / 24 plants

- The Camelot series of F1 hybrid Foxglove is a sensational improvement on older varieties, uniformly producing an abundance of large flowers on strong stems, creating a striking garden display.
- Flowers are held more horizontal rather than being pendulous. Flower colours are **White, Cream, Lavender, Rose** and Mixed, all with the distinctive speckling in the throat of the flowers. Perennial but best treated as Annual.

- **FOXGLOVE** F1 Dalmatian Peach R 250 per Tray / 24 plants
  - Exquisite peach coloured trumpets with prominent spots in the throat of the flowers make this first year flowering Foxglove a particularly eye-catching addition to our range of Foxgloves. Dalmatian Peach is compact growing and will continue to flower on side shoots once the central spike is cut back after flowering.
  - Height: 40-50cm  Spread: 30-35cm

- **FOXGLOVE** A cottage Garden favourite R 470 per Tray / 128 plants
  - A traditional favourite with elegant spires of delicate looking bell-shaped flowers with spotted throats. Superb plants for the back of the border that gets dappled shade.
  - **Foxy Mixed** – Annual (90cm)
  - **Giant Mixed** – Biennial (1,8m)
  - Ideal for: Borders, Cottage gardens

- **GODETIA** Satin flower R 530 per Tray / 128 plants
  - Godetias always attract attention in the garden due to the vivid colours of the flowers and the distinctive satiny feel of the petals. Fast growing and unfussy, Godetias prefer ordinary sandy soil. Very cold tolerant.
  - Mixed
  - Height: 30cm  Spacing: 20 cm
  - Ideal for: Borders, Bedding, Cottage Gardens and Containers

**128 plants will cover 5 m²**
Planting Correctly

Remember to compost and fertilize your beds before planting.

Just right - plant the seedling so that the roots are buried and the stem and leaves are above the ground.

Too Deep

burying the stem or the growing tip will cause the stem to rot and the seedling will die.

Too Shallow

if you plant too shallow, the seedlings will topple over and become weak, while the roots on the surface will dry out and die.

**KALE** Spectacular  R 220 per Tray / 24 plants

Ornamental Kale is a fun plant – ideal if you want something a bit different. They add impact when planted as a group

- Rose
- White

Height: 30 cm  Spacing: 20 cm

Ideal for: Edging and Bedding

24 plants will cover 1 m²

**LOBELIA** Heavenly Lobelia  R 470 per Tray / 200 plants

An essential plant for hanging baskets, containers and the edging of borders. It has a great trailing habit and provides masses of colour when in flower. Keep the plants moist for best results.

- Mixed
- Sky Blue
- Midnight Blue

Height: 15 cm  Spacing: 10 cm

Ideal for: Edging, Containers and Hanging Baskets

200 plants will cover 4.5 m²

**LUPINS**  R 450 per Tray / 128 plants

Tall spires of tightly packed flowers that rise above clumps of palmate foliage in a magical array of colours. These wonderful Lupins are ideal for adding height and structure to the back of perennial borders and woodland edges.

Do not use fertilizers high in nitrogen.

- Russell Giants Mixed

Height 60 cm  Spacing: 25 cm

Ideal for: Borders and Cottage Gardens

200 plants will cover 5 m²

**MESEMBRYANTHEMUM** Bokbaai Vygie  R 450 per Tray / 200 plants

Produces a glowing display in full sun in beds, borders, dry banks and rockeries. A quick carpeting plant which will practically paint the ground in colour. Flowers close at night. They like well-drained, sandy soil.

- Mixed

Height 10 cm  Spacing: 15 cm

Ideal for: Edging, Bedding and Rockeries

200 plants will cover 4.5 m²
Gardens invariably have areas of light, partial and dense shade. It is very important to ensure your plants have the right conditions in your garden in order to thrive. Some plants are quite adaptable to a wide range of conditions. Others are very specific in their requirements.

**SUNNY SPOTS & SUN LOVERS:** Plants, which have a full sun requirement, means exactly that! If these plants get too much shade and not enough sun, they will perform poorly. They usually grow leggy, have weak stems, flop over and will flower poorly. Sun lovers need at least 6-8 hours of direct sun each day.

**LIGHT SHADE:** It occurs under large open-branched trees and consists of areas that receive soft, dappled shade for most of the day. There is no direct sunshine, but plenty of light. This is the easiest of the shady areas to garden.

**SEMI-SHADE or PARTIAL SHADE:** These are defined as those areas of the garden which receive some sun and some shade during the day. This is easy if the plants get morning sun and afternoon shade. Less easy is a spot in the garden that receives a patch of sun at midday only, for example a courtyard. The most difficult aspect in the garden is one that gets morning shade and afternoon sun – treat this as **FULL SUN** for all intents and purposes as shade lovers will roast in the afternoon sun, especially if close to a wall.

**DENSE SHADE:** Very little will grow in dense, dark shade. A canopy of evergreen foliage usually causes dense shade. If you want colour in such areas, you will have to have some of the tree’s branches removed professionally in order to allow more light into the area.

---

**Watering in the cold months**

Remember to stop all watering at lunch time 13:00 pm from 1st May onwards.
Change the time of watering on all automatic sprinklers at the end of April.

---

**MIMULUS** *It’s a kind of magic*  
**R 470 per Tray / 128 plants**

Bright, colourful flowers in a variety of shades, the flowers may be both spotted and clear. Grow very quickly and early flowering. Ideal for warm winter gardens where frosts are mild.  
• Mixed  
Height 20 cm  
Spacing: 15 cm  

Ideal for: Borders and Containers  
128 plants will cover 3 m²

---

**NEMESIA** *Sundrops*  
**R 480 per Tray / 128 plants**

This is a breakthrough variety. Superb colour range. Breathtaking flowers in shades of red, white, rose, gold and many other beautiful colours will brighten your garden throughout the summer. Sundrops is a vigorous-growing, compact variety that shouldn’t be missed!  
• Mixed  
Height 20 cm

128 plants will cover 5 m²

---

**Our Policy on cutting large trays**

**DELIVERED TRAYS:**
We do not deliver 1/4 trays. We only deliver 1/2, 3/4 & full trays. Minimum delivered order - 2 trays.

**COLLECTED TRAYS:**
We can cut 1/4, 1/2, 3/4 trays. We do not cut 24 packs.

**Number of plants per tray**
Our large trays come in 2 sizes: 128 cavity-used for F1 hybrids and perennials, 200 cavity-used for open pollinated seed and a 24 cavity-used for selected annuals and perennials.
Pansies are the world’s No. 1 – best selling bedding plant and it is easy to see why. Not many plant varieties have flowers in all three primary colours – Pansies do, plus a multitude of colours and shades in-between, with either pure solid coloured flowers or with contrasting blotches of colour that resemble little ‘faces’. Their tough constitution and their ability to survive the coldest winter weather make Pansies a sure winner in every garden.

**Pansy “Designer” Mixes**

Pansies are the world’s No. 1 – best selling bedding plant and it is easy to see why. Not many plant varieties have flowers in all three primary colours – Pansies do, plus a multitude of colours and shades in-between, with either pure solid coloured flowers or with contrasting blotches of colour that resemble little ‘faces’. - **Lavender Shades Mixed**
- **Blue Shades Mixed**

**Radiance Mixed**

**Pink Shades Mixed**

**Daffodil Mix**

**Clean Mixed**

**Apricot Shades**

**Pansy Do’s and Don’t’s...**

Do not plant too early if it is very hot. Mulch or cover with some shade. Allow soil to nearly get dry before watering. Pansies hate growing in very wet soils in high temperatures (they get sick and die). Water in the early mornings and foliar feed every 10 to 14 days.

**Pansies... WORLD’s best seller!**

- **128 Plants will cover 3 m²**
- **Height: 15 cm**
- **Spacing: 15 cm**

**Good Idea**

Removing older dead flowers regularly will stop bedding plants from setting seed. This will encourage new growth, branching, more flowers and an extended flowering time, which will also give the bed or border a well maintained appearance.

**Seedling Care**

**When you collect...**

.....Please do not leave seedlings in the car for too long.

**When we deliver.....**

.....Water them immediately when they arrive if showing any signs of wilting. Keep them in a lightly shaded spot or where they get morning sun only.

**Is it necessary to plant out immediately?**

The answer is **NO**; the seedlings can stay in our trays for a couple of days, but keep an eye on them. **DO NOT** let them dry out. Check the edges as they dry out more quickly.

---

**Bigger... Better... Faster...**

Our 24 Pack plants have bigger roots than one would get when purchasing a six pack! 24 Pack Annuals are just what gardeners might need in an emergency situation for special functions.

---

**PETUNIA  F1 R 470.00 per tray - 128 plants**

A dazzling display in a wide range of colours! Petunias do not like wet feet!  **128 plants will cover 5 m²**  Height: 35cm   Spacing: 20cm

---

**PHLOX  - 21st Century  R 520 per Tray / 128 plants**

Phlox are easy to grow, quick to flower and need little attention. The 21st Century series is a vastly improved variety that is vigorous, long flowering and will produce flowers for many months.

• Mixed

Height: 25 cm   Spacing: 20 cm

Ideal for: Bedding, Edging, Cottage Gardens and Containers  **128 plants will cover 5 m²**

---

**Please Phone!**

regarding availability before you drive all the way to Nu-Leaf.
Iceland poppies have glistening, translucent flowers, which are lightly fragrant. Their petals look like tissue paper or crinkled silk which form bowl shaped flowers in exquisite shades of yellow, orange, pink and delicate pastel colours. Poppies create a lavish display from mid winter to late spring and are much loved by bees.

- White Champagne Bubbles
- Yellow Champagne Bubbles
- Scarlet Red Champagne Bubbles
- Pink Champagne Bubbles
- Mixed Champagne Bubbles

Height: 35 cm  Spacing: 20 cm

128 plants will cover 5 m²

Comment: Poppies love to be picked - this should be done as the bud starts to split, revealing the petal colour. Flowers will last longer in a vase if the stems are immersed gently in boiling water for 30 seconds.

Primula malacoides have become synonymous with our winter gardens, as they are tough little flowers that grow quickly and easily in semi shade or partial sun and reward the gardener with a breathtaking show of flowers throughout winter and spring. Ideal for: Edging, Bedding, Containers and Cottage Gardens

- Carmine Glow – deep carmine-purple
- Lavender – clear lavender
- White - glistening white
- Pastel Mixed – Pink, Lavender and white
- Pink - Shades of Pink
- Lollipops Mixed - a blend of all the colours

Height: 20-25 cm  Spacing: 15 cm

200 plants will cover 4.5 m²

Comment: on Primula colours - if the plants are in too much shade the flower colours may be lighter than normal.
Our Simply Stunning Primrose Collection...

**PRIMULA ACAULIS** “Primrose”
Available in 128 tray and 24 Packs

These are ground-hugging plants—barely 12cm high—and will grow happily in light shade or partial sun. The flower heads are made up of numerous flowers packed tightly together. These long lasting, showy flowers have yellow centres and the leaves are prominently veined.

- Mixed
- White
- Bi-colour Mixed
- Lemon Yellow
- Golden Yellow
- Dark Blue
- Pink

Height: 12cm Spacing: 10cm

**PRIMULA ACAULIS - Double flowered** “Primlet”

Primlet Primulas bear clusters of frilly, fully double flowers and a plant in full bloom resembles a mini-rose bouquet! It is an excellent candidate for planting in containers as well as in prominent spots in the garden where the exquisite, bright colours will attract much attention. Easy to grow and long flowering. Expect all the usual Primrose colours in the mix plus a range of pastel pink, lavender, lilac and blush shades.

Available in 24 packs only

R 320

**PRIMULA ELATIOR** “Stalked Primrose”

A totally new and improved variety of the Polyanthus-type Primrose with larger and brighter flowers held above the foliage on 15cm stalks which creates a dazzling display of colour, even from a distance.

R 550 per Tray / 128 plants
R 260 per Tray / 24 plants
**PRIMULA OBCONICA**

**German Primrose**

*Simply Sensational!!*

Obconica Primroses are a real asset in the shady winter garden as they are tough plants and have a long flowering season. They have masses of flowers, in a very different colour range, closely packed together on flowerheads that resemble mini Hydrangeas. The stems are short and sturdy, growing out of a “nest” of green leaves. These leaves can occasionally cause irritation to the skin if handled excessively.

- Deep Blue
- Deep Orange
- Mixed
- White
- Rose

Height 30 cm  Spacing: 20 cm  128 plants will cover 5 m²  

Ideal for: Bedding, Containers and Cottage Gardens

Comment: Obconicas are perennial plants and if looked after carefully in summer, will re-flower for a further season.

**STOCKS**

R 460 per Tray / 128 plants

No winter and spring garden should be without a few of these beautiful flowers. They have a wonderful spicy fragrance reminiscent of cloves, which will fill the evening air. Choose a sunny spot and make sure young plants are kept moist but not soggy. A dressing of agricultural lime in the soil will be beneficial.

- **Dwarf Mixed New Improved variety** - Height: 30-35 cm
- **Tall Mixed New Improved variety** - Height: 50-60 cm  

Ideal for: Bedding, Containers

**SWEETPEAS** Delightfully fragrant  

R 460 per Tray / 128 plants  

R 240 per Tray / 24 plants

A delightfully fragrant spring flower - the more you pick, the more the plant will produce! Sweetpeas are heavy feeders; prepare the soil well where they are to be planted by digging in lots of compost and some kraal manure.

- **Dwarf Mixed** - Height: 30-45 cm
- **Climbing Mixed** - Height: 1.5-2 cm

Ideal for: Borders, Cut Flowers and Cottage garden

**VERBENA**

R 490 per Tray / 128 plants

Popular plants for beds, borders, containers and hanging baskets that will thrive in hot, sunny positions. Water wise.

- Mixed
- Pastel Mix  Height: 20 cm  Spacing: 15 cm  128 plants will cover 3 m²

**Please 📞 Phone!**

Easy to grow, beautiful Violas will quickly mature and flower. They make excellent border or rockery plants and are unrivalled for their ‘flower power’, with plants covered in blooms for many months of the year. Violas prefer to be planted in a position where they will escape the hot afternoon sun.
Groundcovers

Groundcovers may be used in areas where annuals are not required or for difficult or high traffic areas, in between stepping stones, under trees or embankments.

**OPHIOPOGON - Kyoto Dwarf**

R 340 per Tray / 84 plants

This invaluable little groundcover becomes more and more popular month after month! With its narrow dark green leaf blades, and compact habit, dwarf mondo grass is ideal for in between pavers, or as a labour-free carpet under trees - and its frost tolerant! For the quickest covering, plant small rooted “sprigs” of mondo very close together.

**CONVOLVULUS**  

R 300 per Tray / 24 plants

Profuse blue flowers. Grows easily and is a good groundcover for full sun. Cascades over low walls and rockeries. Once established, it will last for years.

**DYMONDEA MARGARITAE**  

Silver Carpet  

R 260 per Tray / 24 plants

Perfectly flat, neat, drought tolerant ground cover, which is good filler in between pavers and stepping-stones.

**Good to remember:** If you have a gardener on a particular day, arrange for delivery a day or two earlier.

**Bella Baskets!**

Available planted with seasonal colour. Phone for availability and prices.

Now it’s EASY to have beautiful hanging baskets enhancing your home and garden.

Hanging baskets. Brimful with colour, are guaranteed to brighten up patios, courtyards and awkward garden corners! Our weather resistant Bella Baskets look good - and are tough and re-usable season after season! What’s more, they have been cleverly designed with a special water reservoir - this helps to reduce watering, but still drains well. When planting up your baskets, we recommend that you use a slow release fertilizer and top quality potting soil.

If you’d prefer planted-up baskets, we have a delightful selection just waiting for a happy home!
F1 AQUILEGIA - Columbine Selection of Songbird & Swan  R 320 per Tray / 24 plants

Popular garden perennials for decades, Aquilegias continue to enthrall gardeners old and new with their incredibly dainty and beautiful flowers. Careful hybridising has produced Aquilegias that bear very large flowers over a much longer period, on plants that are robust and vigorous. Aquilegias, like many other perennials, need a period of cold weather in order to flower successfully in spring. This interesting phenomenon is known as vernalisation.

It is important though, that the plants going through this process must have attained a good size before the cold weather arrives. This will ensure that your Aquilegias will reward you with a magnificent display of flowers in spring. The wise gardener will therefore plant Aquilegias in autumn! Whilst they can be planted in semi-shade to full shade, they require good light.

Colours available:
- Burgundy and White
- Red and White
- Total Mixed
- Dark Blue and White
- Pure White
- Pink and Yellow
- Pink and White
- Lavender and White
- Pure Yellow
- Light Blue and White
- Violet and White

Height: 35 – 50cm  Spread: 35cm

Comments: Old foliage will die off in winter, but new growth will quickly emerge. Aquilegias love mulch especially leaf mold or compost. Aquilegias are tough, long-lasting perennials!

AQUILEGIA MCKANA’S GIANTS  R 440 per Tray / 128 plants

Mckana’s Giants is an older, open pollinated strain of Aquilegias. Although still a delightful mix, plants will vary greatly in height, flower size and colours.
- Mixed

Height: 45-60 cm  Spread: 35 cm

Comment: Do not over water, deadhead regularly for repeat flowering. Easy to grow.
ACHILLEA - Yarrow  R 230 per Tray / 24 plants
Achillea has finely dissected, feathery foliage and a profusion of flat – topped flower heads in a variety of colours all season long. Plants should be deadheaded for continual bloom. Excellent as a contrast plant in borders and as a cut flower.  * Mixed  Height: 60 cm  Spread: 35-40 cm
Comment: Water-wise plants; prefer drier soil in full sun.

AJUGA REPTANS Bugle Plant  R 390 per Tray / 24 plants
Ajuga is a most valuable groundcover in shady spots in the garden being extremely tough and easy to grow. Burgundy Glow has tricoloured foliage of creamy-white, rose-burgundy and dark green which helps to brighten shady corners. Blue flowers produced in early summer are a bonus.  * Burgundy Glow  * Rainbow  Garden height: groundcover to 5cm

BACOPA - Sutera  R 480 per Tray / 24 plants
A trailing and spreading plant with masses of flowers suitable for baskets, containers rockeries or the odd awkward corner.  * White  * Pink  * Blue  * Violet  Height: 15-20 cm  Spread: Extensive
Comment: Plant in fertile soil in full sun or partial shade.

BERGENIA CORDIFOLIA Pigsqueak  R 370 per Tray / 24 plants
An extremely hardy and tough, clump- forming perennial for shady areas. Fascinating to see the large leaves get their autumn colours in winter, this is followed in spring by spikes of bright rose-pink flowers.  * Pink  Height: 25 cm  Spread: 20 cm

BRACHYSCOME Swan River Daisy  R 440 for 24 cavity tray
Brachyscome is a good choice for filling in around tall, leggy plants and carpeting bare spots. They are especially effective as mass plantings, draping over retaining walls, in pots, hanging baskets and as borders.  * Violet  * Magenta  * Fresco Candy  Height: 10 cm  Spread: 30 - 40cm

CAMPANULA THUMBELL Scottish Harebell  R 280 per Tray / 24 plants
This Campanula is a most rewarding and delightful plant as it is perpetually in flower, producing spikes of violet blue, bell shaped flowers freely all season long. It is excellent in the landscape, planted amongst roses, in mixed baskets and containers or used as bedding.  * Blue  Height: 20-25cm  Spread: 20cm

DIASCIA - Twinspur  R 430 per Tray / 24 plants
One of the loveliest indigenous plants, in several delightful colours. Perfect for beds and borders, they will repeat bloom if deadheaded correctly.  * Cranberry Red  * Light Pink  * White  * Orange  Height: 30 cm  Spread: 25-30 cm
Comment: To deadhead: only remove the spent flower heads – leave the foliage intact.
**ERIGERON KARVINSKIANUS**  Fleabane  **R 240 per Tray / 24 plants  R 460 per Tray / 128 plants**
Useful “tough as nails” groundcover. Will grow anywhere and everywhere.
- White  Height: 20 – 30cm  Spread: Extensive  Comment: Needs to be controlled

**FELICIA AMELLOIDES**  Kingfisher Daisy  **R 380 per Tray / 24 plants**
This brilliant blue flowered indigenous plant is ideal for rockeries, edging or the odd difficult corner.
- Blue – Variegated foliage
- Blue – Green foliage  
Height: 35 cm  Spread: 30-40 cm  Comment: Remove old flowers to keep plant tidy.

---

**GAURA LINDHEIMERI**  Sparkle White  **R 460 per Tray / 128 plants**
New and improved variety! Perfect for small space gardens. Beautiful and elegant pure white ‘flowers covers the bush all throughout summer. Compact enough for containers.
Height: 60–70cm  Spread: 40-50cm  Comment: Cheerful, carefree and long flowering in warm, dry conditions.

**GAURA BELLEZA**  Butterfly Bush  **R 490 per Tray / 24 plants**
These exquisite clump-forming plants produce masses of butterfly shaped flowers almost all year long on attractive deep red foliage. The long arching stems lend grace and charm wherever planted and the compact growth habit makes them especially suited to small gardens.
- Dark Pink
- White  Height: 45-50 cm  Spread: 40-50 cm  Comment: Cut back annually to retain shape.

**GAZANIA**  **R 450 per Tray / 128 plants**  **R 230 per Tray / 24 plants**
Indigenous plants producing bright multi-coloured flowers, daisy like in appearance. They need well-drained sandy soil.
- Orange
- White
- Red
- Mixed Pink Shades
- Mixed
- Yellow
- Strawberry Shortcake Mix
- Bronze
Height: 25 cm  Spread: 20 cm  Comment: These are water-wise plants
LAVANDULA MARGARET ROBERTS  R 380 Tray / 24 plants
A really tough lavender! Evergreen and bushy with narrow grey leaves, it produces its tightly packed, dark blue flowers throughout the summer.
Height: 60 cm     Spread: 40 cm

LAVANDULA DENTATA  French Lavender  R 400 per Tray / 24 plants
A spreading, bushy shrub with dark grey – green leaves with characteristic toothed edges, and large, plump lavender coloured flowers.
• Royal Crown     Height: 60 cm     Spread: 40 cm

LAVANDULA MARGARET ROBERTS  R 380 Tray / 24 plants
An outstanding variety selected for its colour and flower power. Intense purple-blue blossoms atop bushy mounds of fragrant, silver-green foliage throughout summer and autumn.
Height: 50cm  Spread: 45cm

NEMESIA AROMATICA  Nesia Series (Large Flowers)  R 430 per Tray / 24 plants
A new and improved wonderful indigenous plant with slightly fragrant flowers, much loved by bees. Nemesia prefers a warm spot in full sun and should not be over watered. Suitable for rockeries, containers and bedding.
• White  • Dark Blue  • Magenta  • Pink  • Banana Swirl  • Tropical  • Burgandy  • Pink Fantasy  • Yellow
Height: 30-35 cm  Spread: 20-25 cm  Comment: Prefers to grow in sandy soil.

OSTEOSPERMUM  - Licenced  R 460 per Tray / 24 plants
An easy to-grow indigenous plant that has a compact growth habit, and produces masses of daisy- like flowers.
• Red  • White Lightning  • Voltage Yellow  • Rose Magic  • Pink Magic  • Sunset Magic  • Dark Purple  • Bronze
Height: 45 cm  Spread: 35-40 cm  Comment: Grows best in well-drained, light soil in full sun.
PELARGONIUM - Ivy Leaved  R 500 per Tray / 24 plants
Compact plants that produce much larger flowers almost continuously throughout the warmer months. Perfect for baskets and containers of all kinds
- Lilac
- Burgundy
- White
- Pink
- Mixed
- Red Ice
- Dark Red
Height: 20-25 cm  Spread: 35-40 cm
Comment: Cut back to shape at the end of August

PENSTEMON F1 Arabesque series  R 400 per Tray / 24 plants
Improved hybrid Penstemons that bear spikes of large, vibrant, tubular flowers with a contrasting white centre. Strong, upright plants, they will flower from spring to autumn.
- Pink
- Orchid
- Appleblossom
- Violet
Height: 50-60 cm  Spread: 35 cm

PEROVSKIA BLUE STEEL  Russian Sage  R 370 per Tray / 24 plants
Perovsia has fragrant grey foliage and quickly form bushy, upright clumps, bearing in summer, spikes of rich, violet-blue flowers. An extremely versatile garden plant, Russian Sage loves hot, sunny sites and is an ideal accent plant in a perennial border. Equally good planted among shrubs, and even in containers or tubs.
- Lavender
Height: 90-150 cm  Spread: 60-90 cm

PENTAS F1 Northern Lights  R 400 per Tray  24 plants
A new variety of Pentas with masses of pale lavender, star-shaped flowers. Plants are seldom without flower and in mild winters will go right through into summer. Will grow best with morning sun and some shade in the late afternoon, otherwise is generally unfussy, requiring only good garden soil and reasonable moisture. Trim plants back in Spring. Height:50-60cm
Excellent as a background plant in borders and in large containers.

Pots-o-pleasure!
Garden not big enough for 24 pack perennials? No need to worry, at Nu-Leaf we also have a selection of Perennials in pots to suit everyone’s needs. Although some of these perennials die down in cold winter gardens they will emerge again each spring and summer year after year, larger and more beautiful than before.
We regretfully do not deliver pots and are for collection only.
Phone for availability and Prices
RANUNCULUS  R 330 per Tray / 24 plants

Although F1 hybrid Ranunculus have been in use as cut flowers for some time, “Mache” performs magnificently in gardens. Uniform, strong growing plants produce an abundance of large, brightly coloured flowers over a long period from late winter until late spring. Ranunculus require a rich, well-drained soil in full sun and will benefit from regular foliar feeding. Deadhead regularly to prolong flowering. An excellent cut flower!  • White  • Yellow  • Purple  • Red  • Rose  • Pink  • Orange  • Total Mixed  • Pastel Mixed  • Mixed Bicolor

Ideal for: Bedding, Borders, Containers, Cottage Gardens, and Cut Flowers  Height: 30-40 cm  Spread: 25-30 cm

SALVIA FARINACEA  Mealy Sage  R 410 per Tray / 128 plants  R 310 per Tray / 24 plants

Although classed as a perennial, this Salvia is usually treated as an annual. Our Victoria strain has the deepest of blue flowers and dense basal branching.  • Blue

Height: 30-35 cm  Spread: 25 cm

SALVIA MYSTIC SPIRES  R 420 per Tray / 24 plants

Very useful as a back of border or focal plant or massed in a large bed. The well-branched plants have dark green foliage and tall spikes of dark blue flowers.  • Dark Blue

Height: 50-60 cm  Spread: 40-50 cm

Comment: The flowers are the deepest blue

SCABIOSA  R 420 for 24 cavity tray

Easy-to-grow Scabiosa must be one of the prettiest garden flowers. Growing in small clumps, the flowerheads stand above the foliage.

Tall:  • Fama Dark Blue  • Fama White  Height: 40 cm
Dwarf:  • Butterfly Blue  Height: 25 cm

Ideal for: Borders, Cottage Gardens and Cut Flowers

SHASTA DAISY  R 250 per Tray / 24 plants

‘White’ is vitally important in a garden. Apart from being a focal point, white acts as a ‘break’ between other colours. And what better way to do this than by using clumps of ever-so-easy Shastas.  • Crazy Daisy – a mix of single and semi-double white flowers.  Height: 60 cm  Spread: 30-40 cm

Comment: A popular and hardy perennial with a long flowering period.
VERBENA  Licensed  R 420 per Tray / 24 plants

A new series of perennial Verbena, with new colours and even better garden performance. Outstanding in the landscape and especially useful in containers. • Deep Pink  • Pink  • Lavender  • Red  • Salmon with Eye  
Height: 20-25 cm  Spread: 30 cm  Comment: Cut back spent flower spikes for repeat flowering.

ZANTEDESCHIA AETHIOPIACA  Arum Lily  R 320 per Tray / 24 plants

A much loved indigenous perennial with white flowers in summer. Evergreen in warm areas, but semi-deciduous in cold gardens.  • White  
Height: 80 cm  Spread: multiplies to become a large clump  
Comment: Requires lots of water and can grow in bog gardens.

VERBASCUM  F1 Mullein  SOUTHERN CHARM  R 350 per Tray / 24 plants

Bold and dramatic these old-fashioned and charming plants are invaluable for lending height in borders. Southern Charm is a seed strain with a unique pastel colour range which includes creamy yellow, rose and lavender. Perfect cottage garden plant, will flower continually throughout the season.  • Mixed  
Height: 70 cm  Spread: 40 cm  Comment: Cut back spent flower spikes for repeat flowering.

STATICE PEREZII  Sea Lavender  R 450 per Tray / 128 plants  R 430 per Tray / 24 plants

Statice perezii will flower for 12 months of the year – a blue blessing for any garden. But be warned – once planted they don’t like being moved!  
• Blue  
Height: 40 cm  Spread: 35 cm  
Comment: A popular and hardy perennial with a long flowering period.

STACHYS LANATA  Lamb’s Ears  R 290 per Tray / 24 plants

A quick spreading groundcover best known for it’s delightful grey-green foliage, which is so, so soft. To keep plants compact and tidy, cut out flower spikes as they form.  
Height: 25 cm  Spread: 30-40 cm

The benefit of planting perennials in autumn

Autumn may seem a strange time to talk about perennials but it is the quiet of winter that will allow you to plan and grow the best ever perennials in your garden. Despite appearances (or lack of them), there are advantages to planting perennials now. You won’t need to water as much, unlike those planted in mid summer. Many will be putting out roots in mild weather, settling in and getting used to their new surroundings, Come spring, they will be raring to go. 
With perennial gardening there can be something to look forward to all year round. Enjoy your perennial gardening.
Mixer Sprayer

**Foliar Feeding MADE Easy!**

Simply pour the selected foliar fertiliser into the sprayer up to the required dosage level, top up with water to the 1litre mark and attach to the front of your hosepipe.

**Remember!**

**Compost and fertilize your beds before planting.**
Most commercial composts contain a very low nutrient charge or food value. Compost alone is not enough. You need to add fertilizer or add kraal manure and bonemeal to prepare a bed. With the exception of a few bedding plants that like sandy soils, most bedding plants only perform well in soils that have been well composted.

Common Pests and Diseases

Aphids, Ants, Snails and Slugs, Cutworm, Mealy Bugs, Beetles!

Bedding plants that are grown in well-composted and fertilized soil, planted in the right position and watered properly, are normally healthy and free from disease, and are less likely to be attacked by insects. If any one of the above conditions is not met, the plants may become spindly, weak and highly susceptible to attack by fungi, viruses, bacteria or an assortment of nasty goggas: - Remember prevention is always better!

Pesticides and Insecticides: Remember pesticides can be harmful to humans and friendly insects if used incorrectly. Nu-Leaf encourages all gardeners to use organic pesticides and insecticides. Whenever you spray, read the label first and then follow the instructions. All pesticides and insecticides must be treated with respect.

Bumper pack seeds

For direct sowing! (Packet will cover an area of about 10 m²) Please for prices

Growing your own flowers from seeds can be a fun and economical method of filling large areas. Please read the back of your seed packet for the best method to use.
